

SV-1500 DVR Flashlight

This personal digital video recorder is a three-in-one tool. As a flashlight, the white LED has 3 brightness levels to provide illumination with minimal battery drain. During the day or night, you can conveniently record video with audio or take photos.

Convenient Recording

This personal video recorder captures movement and audio wherever you encounter matters of interest. One touch control allows you to quickly change from still camera mode to video camera mode while using the flashlight.

Easy to Use

Never miss a moment. The SV-1500 utilizes convenient microSD™ cards to record up to 8 GB of video and photos. Easily access recorded content by connecting the USB cable to the flashlight and your computer.

Features

- Day/Night video recorder and camera with 17 IR LED's takes color photography during the day and clear black and white photos in low-light conditions
- Three levels of brightness: low, medium and high for the light beam lets you adjust the amount of light you need to maneuver in the dark
- Includes 3 NiMH rechargeable C batteries that recharge in 6 hours or you can use alkaline batteries. Recharge batteries using the car adapter in your vehicle or the 12V AC-DC adapter for in-house charging.
